

ONION ARARA

HIGH YIELDING F1 HYBRID ONION VARIETY WITH EXCELLENT QUALITY AND DISEASE RESISTANCE

- High Yielding potential
- Excellent skins and firm bulbs
- Pink Root Resistance
- Globe shaped bulbs

Type
F1 Hybrid Onion
Maturity
Late Short day/ Transition
Plant Characteristics
Vigorous plant growth with upright leaves.
Variety Characteristics
<ul style="list-style-type: none">• Globe shape bulbs.• Excellent colour and skins• Very firm bulbs
Features & Benefits:
Intermediate Pink Root resistance.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
