

CRISPHEAD LETTUCE BRIGADIER

A FUSARIUM RESISTANT LETTUCE WITH EXCELLENT HEAT TOLERANCE FOR THE PRE PACK MARKET

- Summer harvest
- Resistance to Fusarium race 1 and 2 with excellent heat tolerance
- Reduced Ribbing
- Medium sized head and wrapper leaves
- Dark green

Type

BRIGADIER is a Crisphead type lettuce suited for the fresh and pre-pack markets.

Maturity

55 – 60 days from transplant

Plant Characteristics

Medium to large frame with dark green wrapper leaves. Excellent heat tolerance

Variety Characteristics

550 – 800g head with reduced ribbing and a flat base. Ideal for pre-packing. Good head formation under warm conditions

Features & Benefits

Fusarium race 1 and 2 resistance

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
